PROFILE

Driven and enthusiastic back-end developer with 3 years of experience, who has worked also as a front-end developer . Natural curiosity drive my constant pursuit of knowledge and learn. I am always eager to explore new frameworks, languages, and tools to stay ahead of the rapidly evolving industry trends.

EDUCATION

● **Master of science - Computer Science-Software Engineering** — **9/2015-7/2019**

Technische Universität Kaiserslautern — **Kaiserslautern, Germany**

Description:

Grade: 1.8-Gut

Master thesis: Modeling and (semi-)automated instantiation of safety case patterns informed by integrated safety models in safeTbox.
Seminar: "Categorization of Safety Analysis methods for Embedded software systems"
Project: Fraunhofer team-base software development project in cooperation with John Deere Intelligent Solution group Kaiserslautern.

Responsible for software architecture.

● **Bachelor of Science - Information technology** — **1/2011-1/2015**

Azad University Tabriz Branch, Iran — **Tabriz, Iran**

Description:

Bachelor thesis: Wireless sensor networks in wild forest fires application.

WORK EXPERIENCE

● **Agile Developer** — **12/2019 - present**

SAP SE — **St. Leon-Rot, Germany**

Description:

Working as a back-end Java developer with an agile development team to develop API(s) for Successfactors Employee Central.

● **UI Developer** **4/2023-9/2023**
SAP ICN **Potsdam, Germany**

Description:

To further enhance my development skills, I pursued a fellowship at the SAP Innovation Center, where I excelled as a front-end developer.

This experience provided me with valuable exposure to cutting-edge front-end technologies and the opportunity to work on smaller-scale projects independently.

● **Research Assistant** **8/2018-8/2019**
Fraunhofer-Institut für Experimentelles Software Engineering IESE Kaiserslautern **Kaiserslautern, Germany**

Description:

To strengthen my expertise in software development, I actively engaged in requirement engineering activities and conducted extensive research on software design and product solutions.

● **Research Assistant** **10/2017-7/2018**
TU Kaiserslautern **Kaiserslautern, Germany**

Description:

In the role, I successfully identified areas of improvement and implemented strategic enhancements to optimize the website's performance and user experience.

This involved conducting thorough analysis and gathering user feedback to inform the redesign process.

● **Software Developer** **7/2017-9/2017**
INVENSITY GmbH **Wiesbaden, Germany**

Description:

During my internship at INVENSITY GmbH, I had the opportunity to lead the design and development of a web application dedicated to systematic idea management for the "Systematic Innovation" department.
